Deputy Chief Executive

### RESPONSIBILITIES OF THE BOARD OF DIRECTORS

The Board of Directors of the Company is responsible for preparing the separate financial statements that fairly and accurately reflect the financial position of the Company as of June 30, 2025, as well as the results of operations and cash flows for the financial year ending on that date, in accordance with accounting standards, the Vietnamese accounting system, and relevant legal regulations related to the preparation and presentation of financial statements. In preparing these separate financial statements, the Board of Directors is required to:

Select appropriate accounting policies and apply them consistently.

No. 328 Luong Ngoc Quyen street, Phan Dinh Phung ward, Thai Nguyen province, Vietnam

- Make reasonable and prudent judgments and estimates.
- Specify whether the appropriate accounting principles have been followed, and disclose and explain any material deviations in the separate financial statements.
- Prepare the separate financial statements on a going concern basis, unless it is not possible to assume that the Company will continue its operations.
- Design and implement an effective internal control system for the purpose of preparing and presenting reasonable separate financial statements to mitigate risks and fraud.

The Board of Directors of the Company is responsible for ensuring that the accounting records are properly maintained to fairly reflect the financial position of the Company at any given time, and for ensuring that the separate financial statements comply with accounting standards, the Vietnamese accounting system, and relevant legal regulations related to the preparation and presentation of financial statements. The Board of Directors is also responsible for safeguarding the Company's assets and implementing appropriate measures to prevent and detect fraud and other irregularities.

The Board of Directors confirms that the Company has complied with the above requirements in the preparation of the separate financial statements.

On behalf of and representing the Board of Directors,

CÔNG PY CỔ PHẨN TẬP ĐO Á BỆNH VIỆ Hoàng Tuyên

July 30, 2025

Issued in accordance with Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance

No. 328 Luong Ngoc Quyen street, Phan Dinh Phung ward, Thai Nguyen province, Vietnam

3	TNH Viet Yen Hospital Branch	Medical land lot, Nguyen The Nho Road, Nguyen The Nho Residential Area, Viet Yen Ward, Bac Ninh Province, Vietnam	Medical

As of June 30, 2025, the Company has one subsidiary as follows:

Name of Company	Place of Incorporation and Operation	Ownership Percentage (%)	Voting Rights Percentage (%)	Principal Activity
TNH Lang Son Hospital Joint Stock Company	Lang Son Province	84.5	84.5	Medical Examination and Treatment
TNH Pharmaceutical and Medical Equipment Company Limited	Thai Nguyen Province	100	100	Retail of pharmaceutical s and medical equipment

### Disclosure of Comparability of Information in Separate Financial Statements

The comparative figures on the balance sheet are based on the audited financial statements for the fiscal year ended December 31, 2024; the comparative figures on the income statement are based on the Q2/2024 financial statements; and the comparative figures on the cash flow statement are based on the Q2/2024 financial statements.

### 2. BASIS OF PREPARATION OF THE SEPERATE FINANCIAL STATEMENTS AND FISCAL YEAR

### Basis of Preparation of the Seperate Financial Statements

The accompanying seperate financial statements are presented in Vietnamese Dong (VND), on a historical cost basis, and in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and relevant legal regulations concerning the preparation and presentation of separate financial statements.

The accompanying separate financial statements are not intended to present the separate financial position, separate operating results, or separate cash flows in accordance with generally accepted accounting principles and practices in other countries outside of Vietnam.

Users of these separate financial statements should read them in conjunction with the Company's consolidated financial statements for the financial period ended June 30, 2025, to obtain complete information on the Company's consolidated financial position, consolidated operating results, and consolidated cash flows for the period.

### Fiscal year

The Company's fiscal year begins on January 1 and ends on December 31.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies adopted by the Company in the preparation of the separate financial statements:

### **Accounting Estimates**

The preparation of separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and relevant legal regulations related to the preparation and presentation of consolidated financial statements requires the Board of Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets, and the disclosure of contingent liabilities and assets as of the date of the separate interim financial statements, as well as the reported amounts of revenues and expenses during the period. Although accounting estimates are made based on the Board of Directors' best knowledge, actual results may differ from those estimates and assumptions.

### Cash

Cash includes cash on hand and demand deposits with banks.

### **Financial Investments**

### Investments in Subsidiaries

Subsidiaries are entities controlled by the Company. Control is achieved when the Company has the ability to govern the financial and operating policies of the investee companies to obtain benefits from their activities.

Investments in subsidiaries are presented in the Balance Sheet at cost, less any allowance for impairment (if any). An allowance for impairment of investments is made when there is conclusive evidence of a decline in the value of these investments as of the end of the accounting period.

### Investments in Equity Instruments of Other Entities

Investments in equity instruments of other entities reflect investments in equity instruments where the Company does not have control, joint control, or significant influence over the investee.

Investments in equity instruments of other entities are recorded at original cost, less any allowance for investment impairment.

### Receivables

Receivables represent amounts that can be collected from customers or other parties. Receivables are presented at their carrying value, less any allowance for doubtful accounts.

An allowance for doubtful accounts is established for receivables that are overdue or for receivables from debtors who are unlikely to pay due to liquidation, bankruptcy, or similar difficulties.

### Inventory

Inventories are stated at the lower of cost and net realizable value. The cost of inventories includes purchase costs and any other directly attributable expenses related to the acquisition of inventories. The Company applies the perpetual inventory system for accounting purposes. The cost of inventories is determined using the first-in, first-out (FIFO) method. Net realizable value is the estimated selling price less the estimated costs of completion and the estimated costs necessary to make the sale.

Provisions for inventory devaluation are made in accordance with the prevailing accounting regulations. Accordingly, the Company is allowed to make provisions for obsolete, damaged, or low-quality inventories, and when the cost of inventories exceeds their net realizable value at the end of the accounting period.

### Tangible Fixed Assets and Depreciation

Tangible fixed assets are presented at cost less accumulated depreciation.

The cost of tangible fixed assets includes the purchase price and all other directly attributable costs incurred to bring the asset to a state ready for its intended use.

The cost of self-constructed or self-produced tangible fixed assets includes construction costs, actual production costs incurred, as well as installation and trial run costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The specific depreciation periods are as follows:

	Number of years
Factories and structures	05 – 48
Machinery and equipment	06 – 15
Office equipment	08 – 10
Transport vehicles	10 – 15

Gains or losses arising from the disposal or sale of assets are the differences between the proceeds from disposal and the carrying amount of the assets, and are recognized in the income statement.

### **Property leasing**

All leases are considered operating leases.

### The company is the lessor

Operating lease income is recognized on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are recognized as an expense when incurred or amortized over the lease term in line with the recognition of operating lease revenue.

### The company is the lessee

A lease is classified as an operating lease when the lessor retains substantially all the risks and rewards of ownership. Operating lease expenses are recognized in the consolidated interim income statement on a straight-line basis over the lease term. Payments received or receivable as an

incentive for entering into an operating lease are also recognized on a straight-line basis over the lease term.

### Intangible fixed assets and depreciation

### Land use rights

Intangible assets representing land use rights are stated at cost less accumulated amortization. Land use rights are amortized over the useful life of the land, which is up to 50 years.

### Computer software

Computer software is stated at cost less accumulated depreciation and is amortized on a straight-line basis over 8 to 20 years.

### **Investment Properties**

Investment properties include parts of Thai Nguyen International Hospital and Yen Binh General Hospital held by the Company to earn rental income. Investment properties for lease are stated at cost less accumulated depreciation. The cost of self-constructed investment properties is determined based on the settled value of the construction or other directly attributable costs.

Leased investment properties are depreciated on a straight-line basis over their estimated useful lives, ranging from 42 to 46 years.

### Cost of basic construction in progress

Assets under construction for production, rental, administration, or any other purposes are recorded at cost, which includes all necessary expenditures to bring the asset to its intended condition in accordance with the Company's accounting policies. Depreciation of these assets is calculated in the same manner as for other assets and commences when the asset is ready for use.

### Advance payments

Prepaid expenses include actual expenses that have been incurred but are related to the business performance of many fiscal years. Prepaid expenses include tools and supplies issued for use, asset insurance costs, fixed asset repair costs and other prepaid expenses.

Asset insurance costs represent insurance costs for assets incurred annually and are allocated to the Income Statement on a straight-line basis for a maximum of 12 months.

Fixed asset repair costs represent one-time major repair costs of fixed assets with large value and are allocated to the Income Statement on a straight-line basis for a maximum of 3 years.

Tools and supplies issued for use and other prepaid expenses are considered to be able to provide economic benefits in the future. These expenditures have been capitalized as prepayments and are allocated to the Consolidated Income Statement using the straight-line method in accordance with the current accounting regulations.

### Revenue Recognition

### Revenue from Service Provision

Revenue from service transactions is recognized when the outcome of the transaction can be measured reliably. If a service transaction spans multiple periods, the revenue is recognized in each period based on the work completed as of the date of the consolidated balance sheet for that period. The outcome of a service transaction is considered reliably measurable when all the following four (4) conditions are met:

- (a) Revenue is reasonably certain;
- (b) It is probable that the economic benefits associated with the service transaction will flow to the Company:
- (c) The stage of completion of the service transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the service transaction can be measured reliably.

### Revenue from real estate sales is recognized when all of the following five (5) conditions are simultaneously met:

- (a) The real estate has been fully completed and handed over to the buyer, and the company has transferred the risks and rewards associated with ownership of the real estate to the buyer;
- (b) The company no longer retains control over the real estate or manages it as the owner;
- (c) Revenue can be measured reliably;
- (d) The company has received or will receive economic benefits from the real estate sale transaction; and
- (e) The costs related to the real estate sale transaction can be determined.

**Interest income** is recognized on an accrual basis, determined based on the balance of deposit accounts and applicable interest rates.

### **Borrowing costs**

Borrowing costs are recognized as an expense in the period in which they are incurred, except when they are capitalized in accordance with Vietnamese Accounting Standard No. 16, "Borrowing Costs." Under this standard, borrowing costs that are directly attributable to the acquisition, construction, or production of qualifying assets—those that require a substantial period of time to get ready for their intended use or sale—are added to the cost of those assets until they are ready for use or sale. Any income earned from the temporary investment of borrowed funds is deducted from the cost of the related asset. For specific borrowings used for the construction of fixed assets or investment properties, interest costs are capitalized even when the construction period is less than 12 months. Other borrowing costs are recognized in the consolidated interim income statement as incurred.

### **Taxation**

Corporate income tax represents the total amount of current tax payable and deferred tax.

Current tax is calculated based on the taxable income for the year. Taxable income differs from profit before tax as presented in the income statement because it excludes taxable or deductible income or expenses in different periods and does not include non-taxable or non-deductible items.

Deferred income tax is calculated on the differences between the carrying amounts and the tax bases of assets and liabilities in the seperate financial statements and is recognized using the Balance Sheet Method. Deferred income tax liabilities are recognized for all taxable temporary differences, while deferred income tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. As of June 30, 2025, the Company does not have any material temporary differences between the carrying amounts and the tax bases of assets or liabilities in the balance sheet.

Deferred income tax is determined based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled. Deferred income tax is recognized in the income statement, except when it relates to items recognized directly in equity, in which case it is also recognized directly in equity.

Deferred income tax is determined based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled. Deferred income tax is recognized in the income statement, except when it relates to items recognized directly in equity, in which case it is also recognized directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset when the Company has a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income taxes relate to the same taxable entity and are levied by the same taxation authority, with the intention to settle on a net basis.

The Company's income tax is determined based on prevailing tax laws and regulations. However, these regulations are subject to change over time, and the final determination of corporate income tax is subject to review and approval by the relevant tax authorities.

Other taxes are applied in accordance with the prevailing tax laws of Vietnam

### 4. CASH

- (i) The loan from the Bank for Investment and Development of Vietnam Joint Stock Commercial Bank Thai Nguyen Branch is pursuant to Credit Agreement No. 01/2024/5745705/HĐTD dated August 15, 2024, with a credit limit of VND 120,000,000,000. The interest rate is determined at each disbursement, ranging from 6% to 7.2% per annum in 2025. The purpose of the loan is to supplement working capital, provide guarantees, and open letters of credit (L/C). The credit limit is valid from the contract signing date until August 15, 2025. The loan term is determined in each debt acknowledgment agreement, but shall not exceed 12 months. The loan is secured by collateral including machinery, equipment, workshops, architectural works, and tools and instruments as disclosed in Notes 08 and 10 to the financial statements.
- (ii) The loan from Military Commercial Joint Stock Bank Thai Nguyen Branch is pursuant to Credit Agreement No. 257709.479.TD dated December 10, 2024, with a credit limit of VND 120,000,000,000. The interest rate is determined at each disbursement. The purpose of the loan is to support healthcare business activities, including refinancing the Company's loan from the Bank for Investment and Development of Vietnam Joint Stock Commercial Bank Thai Nguyen Branch. The credit limit is valid from the contract signing date until October 28, 2025. The maximum loan term is 6 months per loan agreement, with specific terms determined at each disbursement and debt acknowledgment. As at June 30, 2025, the loan bears an interest rate of 6.5% per annum. This loan is unsecured.
- (iii) The long-term loan from Military Commercial Joint Stock Bank Thai Nguyen Branch is pursuant to Credit Agreement No. 99608.22.090.1699479.TD dated February 7, 2023, with a credit limit of VND 480,000,000,000. The loan term is 10 years, starting from the day following the date of the first disbursement by the lender. The interest rate is determined at each disbursement, drawdown, and as mutually agreed. The purpose of the loan is to finance the construction and procurement of medical equipment for the Investment and Construction Project of TNH Viet Yen Hospital in Bac Giang, located on the healthcare-designated land lot in Nguyen The Nho residential area, Bich Dong Town, Viet Yen Town, Bac Giang Province. As at June 30, 2025, the loan bears an interest rate ranging from 7% to 9.8% per annum. The loan is secured by the land use rights and assets attached to the land formed from the loan at the Nguyen The Nho residential area, Bich Dong Town, Viet Yen Town, Bac Giang Province, as disclosed in Notes 10 and 11 to the financial statements.
- (iv) The loan under Credit Contract No. 195039.24.090.32782217.TD dated May 2, 2024, with a credit limit of VND 450,000,000,000, has a maximum loan term of 10 years from the day following the date the Lender disburses the first loan installment. The interest rate is determined for each disbursement, based on the debt receipt and mutual agreement. The purpose of the loan is to finance the construction investment of the TNH Lang Son Hospital Project located at Block 10, Tam Thanh Ward, Lang Son City, Lang Son Province. As of June 30, 2025, the applicable interest rate is 7% per annum. The loan is secured by the land use rights and the assets attached to the land to be formed in the future at Block 10, Tam Thanh Ward, Lang Son City, Lang Son Province, as presented in Note 11 and Note 13.
- (v) The long-term loan from the Bank for Investment and Development of Vietnam Joint Stock Commercial Bank Thai Nguyen Branch includes a loan under Credit Agreement No.

02/2023/5745705/HĐTD dated August 28, 2023, with a credit limit of VND 5,500,000,000. The loan term is 60 months. The interest rate for the first 12 months is 8% per annum; thereafter, the interest rate is floating and determined based on the formula stipulated in the loan agreement. The purpose of the loan is to finance the investment in the rooftop solar power system project for electricity generation to serve the Company's business operations. The loan is secured by machinery and equipment, specifically the rooftop solar power system for electricity generation, as disclosed in Note 10 to the financial statements.

- (vi) The loan under Credit Agreement No. 03/2024/5745705/HĐTD dated July 2, 2024, has a credit limit of VND 8,400,000,000 and a loan term of 60 months. The interest rate for the first 12 months is 7% per annum; thereafter, a floating interest rate is applied, adjusted twice a year on January 1 and July 1, with a minimum margin of 3% per annum. The loan is used to finance the rooftop solar power system project for electricity generation to support the Company's business operations. The loan is secured by the rooftop solar power system for electricity generation, as disclosed in Note 10 to the financial statements.
- (vii) The loan under Credit Agreement No. 04/2025/5745705/HĐTD dated November 4, 2024, has a total amount of VND 90,000,000,000, but shall not exceed 76.9% of the project's actual total investment. The loan term is 72 months from the date of the first disbursement. The interest rate for the first 12 months is 6.5% per annum, thereafter subject to floating rates in accordance with the bank's regulations. The loan is used to finance lawful, reasonable, and eligible expenses for the investment project to renovate, repair, and upgrade the 9-storey building of Thai Nguyen International Hospital. The loan is secured by all assets formed from the Investment Project to renovate, repair, and upgrade the 9-storey building of Thai Nguyen International Hospital (Phase 3 of the Hospital Construction Investment Project), as disclosed in Note 13 to the financial statements.
- (viii) The long-term loan from the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) Thai Nguyen Branch is pursuant to Credit Agreement No. 171/21/HĐTD/TN dated June 10, 2021, and the Amendment Agreement dated September 20, 2021, with a credit limit of VND 19,634,000,000 under the method of disbursement by individual loan agreements. The loan purpose, interest rate, and loan term are specified in each individual loan agreement. In 2025, the interest rates range from 6.6% to 8.5% per annum. The loan is secured by collateral, including medical machinery and equipment such as: a MAGNETOM Sempra 1.5 Tesla MRI system and hospital-integrated imaging software, an anesthesia machine with alveolar recruitment and anesthetic gas monitoring features (Carestation 650) under Mortgage Agreement No. 188/21/HĐTC/TN, and a full HD 1-chip endoscopic surgical system and a set of laparoscopic surgical instruments formed from the loan proceeds and the Company's own capital, as disclosed in Notes 10 and 11 to the financial statements.
- The long-term loan from the Joint Stock Commercial Bank for Foreign Trade of Vietnam (ix)(Vietcombank) - Thai Nguyen Branch is pursuant to Credit Agreement No 422.TDH/24/HÐTD/TN dated December 29 2024 with a credit limit of VND 1.000.000.000 disbursed under individual loan agreements The purpose of the loan interest rate and loan term are specified in each individual agreement In 2025 the loan bears an interest rate of 6.1% per annum The loan is secured by machinery and equipment including MAGNETOM Sempra 15 Tesla MRI system and hospital-integrated imaging software under Equipment Mortgage Agreement No 176/21/HĐTC/TN dated June 10 2021 One anesthesia machine with alveolar recruitment and anesthetic gas monitoring features model Carestation 650 (Carestation 650 A1) manufactured by Datex-Ohmeda Inc (GE Healthcare) USA under Equipment Mortgage Agreement No 188/21/HDTC/TN dated June 22 2021 A full HD 1-chip endoscopic surgical system and a set of laparoscopic surgical instruments under Equipment Mortgage Agreement No 450/21/HĐTC/TN dated June 14 2021 PCR laboratory machinery and equipment under Equipment Mortgage Agreement No 302/21/HĐTC/TN dated September 1 2021 A 300m³/day underground water filtration system using temperature-

### 26. EVENTS OCCURRING AFTER THE END OF THE FINANCIAL PERIOD

The Executive Management Board of the Company confirms that there are no events occurring after the end of the financial period that need to be disclosed or adjusted in the financial statements

### 2. Segment Reporting

Segment information is presented based on the Group's primary reporting segments, which are geographical segments. The results of each segment include items that are directly attributable to the segment as well as those that can be reasonably allocated to the segments. Unallocated items include assets and liabilities, finance income and expenses, selling and general administrative expenses, other gains and losses, and corporate income tax.

### Geographical Segments

When presenting geographical segment information, the segment revenue is reported based on the location of customers in Vietnam. Segment assets and capital expenditure indicators are not presented as the location of the assets and the main production base is primarily in Vietnam.

### SEGMENT REPORT BY BUSINESS LOCATION Q2/2025

Indicator	Thai Nguyen International Hospital	TNH Pho Yen Hospital	TNH Viet Yen Hospital
